GOLF TIP: LONG BUNKER SHOT

From time to time, you will find yourself in a greenside bunker that is far from the pin. you can select a club with less loft such as a gap wedge or even a pitching wedge if you are going to run the ball to the pin. Setup keys include ball forward,

open stance, and open club face. Use a longer backswing and swing around your body for longer bunker shots. It is important to accelerate into impact and through the ball into a full finish. You can hit behind the ball a couple of inches as normal. You do not need to vary the amount of sand you take for this longer shot.
